❖ 52-SC Engage, Inspire, Learn: Using Technology to Empower Your Learners

Course Leaders: Shaun Else and Richard Parker

Join this course to join a fully immersive, hands-on learning adventure! Over the course of three days, participants will have a chance to deepen their professional knowledge and comfort on a variety of technology tools and ideas. Participants will explore iPads and Chromebooks, the Google Suite of products as well web-based tools, apps and extensions! This course is designed in order to meet you wherever you happen to currently be on your technology integration journey and will allow you to guide your own learning with specific focuses on building your personal capacity. From effective integration of computer coding and robotics, efficient assessment with Google and highly engaging projects such as Choose Your Own Adventure Stories, GreenScreen with iPads, 3D printing/design and Digital Breakout Rooms, participants will walk away from this course energized, engaged and empowered! Learn as your students will, with a focus on inquiry, engagement, global competencies and project based learning!

Please bring your own laptop or Chromebook with Wi-Fi capabilities and the Chrome browser installed. You will also need to have a Google Apps for Education or Gmail account. If needed, instructions will be sent to participants on how to do this prior to the start of the course.
