Addressing Challenging Behaviours: This workshop provides practical information and strategies for consciously teaching, supporting, and reinforcing positive behaviour in classrooms. This workshop will explore positive approaches to effective behaviour support, how to respond to challenging behaviour of students, review and improve classroom routines and procedures that support effective instruction, learning, and social skills acquisition, and relationships between educators, students, parents, and other students.

Active Body Healthy Minds: This fun-filled, practical, interactive workshop will highlight aspects of the revised Health and Physical Education curriculum using a variety of ready-to-use activities and motivating ideas for all educators. Discussion will focus on a range of important topics, including active living, healthy living, Teaching Games for Understanding, and assessment and evaluation. Participants should be prepared for moderate physical activity dressed in active wear (indoor and/or outdoor, with outdoor clothing) and are encouraged to wear running shoes. Participants are asked to bring their own laptops as discussion and activities will be based on these excellent resources.
