Celebrate artistic diversity! This workshop explores a wide range of art styles and mediums. Known as one of the most popular workshops, it provides a rich collection of adaptable art lesson plans. In this practical, hands-on art workshop you will explore ways to encourage both numeracy and literacy. You will create 3-D projects and learn how to extend the use of crayons and markers to create numeracy-rich art projects that incorporate skills such as measurement, estimation, symmetry and proportion. You will also discover artful ways to encourage media literacy and language. You will leave with a variety of fun ways to spark the interest of even your most reluctant learners. Please bring a device with you for this workshop.
